

Wyoming Public School

Works notification

22 June 2022

Dear staff and parents/carers,

Upcoming maintenance works at Wyoming Public School will require working with asbestos containing material. Testing conducted by an independent hygienist has confirmed that the material is bonded asbestos, which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

The area is safe at present, and it will be cordoned off before works start and will remain out of bounds to students and staff until the removal work is completed.

The area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The material is scheduled to be removed from flooring in Block D on Saturday 25 June 2022. All asbestos containing material will be removed outside of school hours.

Testing will be completed to ensure the area has been fully remediated. The school will receive a clearance certificate before the area is open to students and staff. We will keep you informed if further material is found which requires removal.

Thank you for your cooperation during this important work.
