Change to COVID-19 isolation requirements

Dear parents and caregivers

As you would be aware there has been some changes to the COVID isolation requirements.

Students, staff, and visitors to **mainstream school settings** must isolate for 5 days. They can attend school on the 6th day if:

- They are symptom free
- They complete a RAT and return a negative result
- They wear a mask on days 6 and 7 if older than 12 years of age

Students, staff, and visitors to support class settings must isolate for 7 days and only return when they are symptom free.

If you require more RATs to support this change in process, please contact the office – we are happy to supply.

Kind Regards

Rebecca Wild
