Child Protection Program

Dear Kindergarten families,

As part of the Personal Development, Health and Physical Education curriculum students will participate in Child Protection lessons. These lessons will help students to identify dangerous or uncomfortable situations, explore alternative courses of action, correctly name different body parts and to seek help from trustworthy adults.

The lessons also develop:

- Positive relationships
- Self esteem
- Caring and nurturing skills
- Communication
- Assertive skills

The Child Protection lessons have been developed by the NSW Department of Education and Communities and they are an important priority for schools.

If you would like more information about the program, please feel free to contact the school.

If you wish for your child **not** to attend these very important lessons, please write to inform your child's class teacher by 9 August 2022.
