Monday

Activity 1: Reading

Online: PM Reader online and record your reading: <https://app.pmecollection.com.au/login>;

OR

ReadTheory if you are reading at Independent level: <https://readtheory.org/auth/login>

Paper: Read a book aloud

Activity 2: Misery Guts - Prediction

Don't read the back of the book! Don't open the book! First, answer these questions.

What is the setting for the story and why? _____

Why is the man in the apron holding his nose? _____

Why is the man in the hat there? What might he be writing? _____

What will the story be about? _____

Activity 3: Misery Guts - Reading

Read the chapter yourself or follow the words as you listen to the audio book (check the link):

Chapter 1:

<https://ed.ted.com/on/pVYxvhOH>

Activity 4: Vocabulary

Word Chains

Make a word chain below, describing an **apple**. Draw your apple in the middle of the circle and surround your apple with interesting adjectives that describe it.

Build noun groups by placing relevant adjectives in front of the noun

1. This is my _____, _____, _____ apple.
2. This is my _____, _____, _____ apple.
3. This is my _____, _____, _____ apple.

Activity 5: Sentence Writing

Today you will write your sentences about a colour:

Example:

Simple	My favourite colour is green.
<u>Compound</u>	My favourite colour is green <u>because it is bright.</u>
<i>Complex</i>	My favourite colour is green, <i>which is also my sister's favourite colour</i>, <u>because it is bright.</u>

Now it's your turn:

Simple	<ul style="list-style-type: none">• Write a simple sentence about your favourite colour.
Compound	<ul style="list-style-type: none">• Now write the same sentence again.• Instead of ending with a full stop, add a conjunction (a joining-word such as because, and, or, but or so): don't put a full stop yet.• Finish the sentence and check it makes sense.
Complex	<ul style="list-style-type: none">• Now, write your simple sentence again (the top sentence).• Instead of a full stop, put a comma.• Write the word <i>which</i> after the comma.• Add some extra information about your simple sentence: don't put a full stop yet.• Add another comma.• Add the same conjunction and ending you used in your compound sentence.• Add a full stop and check that your sentence makes sense.

Extension: write a new clause for your complex sentence and rewrite your whole sentence below.

Activity 6: Grammar and Punctuation

Capital Letters

We know that capital letters should be used when starting a sentence. However, we also use capital letters for the names of people and places, special events, titles, days of the week, months of the year and the personal pronoun 'I'.

**Today's focus point: naming people and places

Example:

I have a friend at Wyoming Public School named Sebastian.

EDIT: Add the capital letters to this sentence. Don't forget to include a full stop –

the increased volcanic activity meant that ben was at risk of missing his return flight home to australia

Write your own sentence on the lines below (include a place name and the name of a person) –

Activity 7: Number of the Day

Complete the Number of the Day page (see separate sheet). Today's number (choose one):

22 or 822 or 3822 or 53 822

Place Value Stacks

Base 10

Number of the Day

Regrouping

Number of ones

_____ ones

Number of tens

_____ tens + _____ ones

Number of hundreds

_____ hundreds + _____ tens + _____ ones

_____ hundreds + _____ ones

Number of thousands

_____ thousands + _____ hundreds + _____ ones

_____ thousands + _____ hundreds + _____ tens + _____ ones

Add or Subtract

Add 8 =

Add 23 =

Add 564 =

Subtract 5 =

Subtract 42 =

Subtract 137 =

Spelling

Number Line

Activity 8: Addition Strategies

Have a go at solving the problems using the strategies OR write the steps out with Mr Walter. If you 'get it', see if you can write the steps to each strategy by yourself (without Mr Walter's help). These numbers are different to the numbers on the videos.

<http://mrw1.weebly.com/>

Bridge to 10	$7 + 4$	Doubles	$6 + 7$
Compensation	$8 + 5$	Partitioning	$8 + 5$
Split	$58 + 36$	Jump	$69 + 45$
Compensation	$94 + 38$	Reconfiguring	$83 + 47$

Split	$592 + 496$
Jump	$684 + 315$
Compensation	$689 + 327$
Reconfiguring	$344 + 297$
Non-standard Partitioning	$781 + 611$

Activity 9: Data

Online: StudyLadder – log in and complete the Data activity in the pod

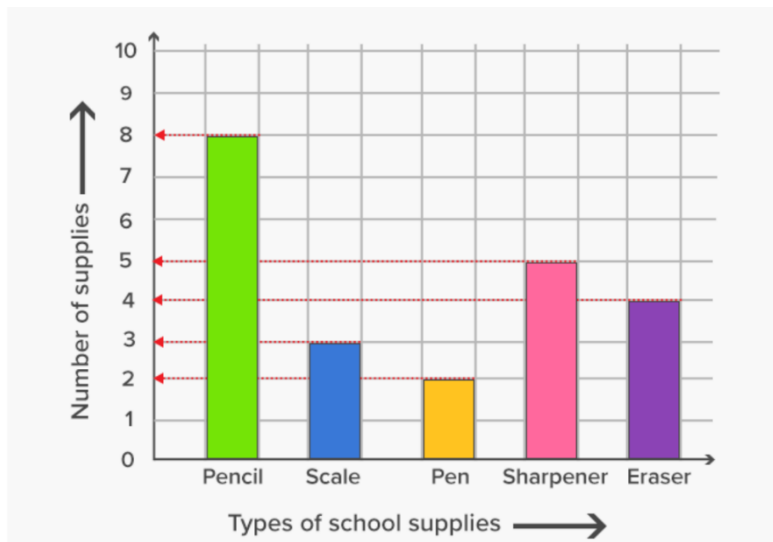

Paper: Complete the following activity. There is a colour sheet at the back of your pack to help.

What is a graph?

What are some types of graphs you might have seen before?

What is the purpose of a graph?

Below is an example of a Bar Graph. Can you think of 3 pieces of information that it gives you?

1. _____

2. _____

3. _____

Extension: Have a go at completing the activity below and turning the information into a bar graph.

<https://mrnussbaum.com/bar-graph-practice-favorite-ice-cream-flavor-online>

<https://mrnussbaum.com/bar-graphs-and-fractions-v1-online>

Column (or bar) graphs can be vertical or horizontal.

The ages in our class

The numbers beside the graph show us 'how many'.

1 This is a horizontal column graph showing 3T's favourite animals. Show this information as a vertical column graph on the right.

3T's favourite animal

3T's favourite animal

platypus

possum

wombat

koala

bilby

Tuesday

Activity 1: Reading

Online: PM Reader online and record your reading: <https://app.pmecollection.com.au/login>;

OR

ReadTheory if you are reading at Independent level: <https://readtheory.org/auth/login>

Paper: Read a book aloud

Activity 2: Misery Guts - Reading

Read the chapter yourself or follow the words as you listen to the audio book (check the link):

Chapter 1:

<https://ed.ted.com/on/pVYxvhOH>

Activity 3: Misery Guts - Comprehension

Understanding Words

On Zoom, your teacher will help you describe, discuss and show you what these words refer to. Research what these words mean (google images may help with some of these), then draw them. Make sure you understand what the word means in context (the way it is used in the story) as some words are homophones. Eg *flat* refers to a unit or apartment in the story.

flat	pavement	record	magazine
tablecloth	reception	dustbin	milk truck

Activity 4: Vocabulary

Word Cline

Complete the word cline below, starting with the word big, and filling in the blanks, adding words with more impact as you move up the cline.

Activity 5: Sentence Writing

Today you will write your sentences about your school uniform:

Example:

Simple	I like wearing my school uniform.
<u>Compound</u>	I like wearing my school uniform <u>because it makes me feel like part of the school.</u>
<i>Complex</i>	I like wearing my school uniform, which is green and red, <u>because it makes me feel like part of the school.</u>

Now it's your turn:

Simple
Compound
Complex

Extension: write a new clause for your complex sentence and rewrite your whole sentence below.

Activity 6: Grammar and Punctuation

Capital Letters

**Today's focus point: naming people and places

EDIT: Add the capital letters to this sentence. Don't forget to include a full stop –

before setting off on their journey to byron bay, jeremy and samantha decided to water all their house plants

Write your own sentence about travelling on the line below (include the name of a person and the name of a place) –

Activity 7: Number of the Day

Complete the Number of the Day page (see separate sheet). Today's number (choose one):

11 or 711 or 2711 or 42 711

Activity 8: 2D Shapes

Online: StudyLadder – log in and complete the 2D Shapes activity in the pod

Paper: Complete the following activity. There is a colour sheet at the back of your pack to help.

Quadrilaterals and Parallelograms

What do the 2D shapes on the next page have in common? If you guessed that they're all quadrilaterals, you would be correct! Did you know that some of these are also parallelograms? So, what's the difference?

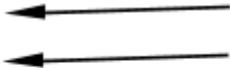

Quadrilaterals

- Quadrilateral means four sides - 'quad' means four and 'lateral' means side
- It is a closed 2D shape with four straight sides
- They have four vertices (points) with interior angles that add up to 360°
- **Fun Fact:** The national flag of Nepal is the only flag in the world that isn't a quadrilateral

Parallelograms

- Parallelograms, like quadrilaterals, are also closed 2D shapes with four straight sides, four vertices and interior angles that add up to 360°
- The difference? Their opposite sides are parallel and equal in length
- **Parallel** lines run alongside each other in pairs. If the lines were to be continued, they would never meet. Think of train tracks.

Parallel		Not Parallel	
			

All parallelograms are quadrilaterals, but not all quadrilaterals are parallelograms (try saying that five times really fast).

**If you're still confused, refer to the 2D shapes at the top of the page.

Let's find out what you already know about certain quadrilaterals. Fill out the table on the next page. The first one has been done for you.

Shape	Name	Properties
	Rectangle	Angles: All angles are right angles (90°) Sides: Opposite sides are parallel. Opposite sides are equal in length Symmetrical? Yes. Two lines of symmetry Parallelogram: Yes
	Square	Angles: Sides: Symmetrical? Parallelogram:
	Rhombus	Angles: Sides: Symmetrical? Parallelogram:
	Trapezium	Angles: Sides: Symmetrical? Parallelogram:

Extension: Scan the QR code and experiment with the different types of quadrilaterals and parallelograms

Wednesday

Activity 1: Reading

Online: PM Reader online and record your reading: <https://app.pmecollection.com.au/login>;

OR

ReadTheory if you are reading at Independent level: <https://readtheory.org/auth/login>

Paper: Read a book aloud

Activity 2: Misery Guts - Reading

Read the chapter yourself or follow the words as you listen to the audio book (check the link):

Chapter 1:

<https://ed.ted.com/on/pVYxvhOH>

Activity 3: Misery Guts - Comprehension

Chapter 1

1. Why did Keith think that Mum and Dad were misery guts?

2. What colour did Keith paint the shop? Why did he paint it?

3. On what date did Keith think that Mr Naylor last smiled?

4. What does wonky mean?

5. Which country do you think the story is set in?

Activity 4: Vocabulary

Word Chains

Make a word chain below, describing a **snake**. Draw your snake in the middle of the circle and surround your snake with interesting adjectives that describe it.

Build noun groups by placing relevant adjectives in front of the noun

1. This is my _____, _____, _____ snake.
2. This is my _____, _____, _____ snake.
3. This is my _____, _____, _____ snake.

Activity 5: Sentence Writing

Today you will write your sentences about a sport:

Example:

Simple	I enjoy playing basketball.
--------	-----------------------------

<u>Compound</u>	I enjoy playing basketball <u>because I can slam dunk.</u>
<i>Complex</i>	I enjoy playing basketball, <i>which is exciting,</i> <u>because I can slam dunk.</u>

Now it's your turn:

Simple
Compound
Complex

Extension: write a new clause for your complex sentence and rewrite your whole sentence below.

Activity 6: Grammar and Punctuation

Capital Letters

**Today's focus point: naming special events

Example: The Olympic Games finally took place a year after being postponed.

EDIT Add the capital letters to this sentence. Don't forget to include a full stop –

the commonwealth games are set to take place in england next year

Write your own sentence on the lines below –

Activity 7: Number of the Day

Complete the Number of the Day page (see separate sheet). Today's number
(choose one):

66 or 466 or 7466 or 97 466

Activity 8: Fractions

Online: StudyLadder – log in and complete the Fractions activity in the pod

Paper: Complete the following activity. There is a colour sheet at the back of your pack to help.

Think Board

In the following pages is a Think Board. We use Think Boards to represent or show ideas in a variety of ways. Today you are going to represent a fraction of your choice (eg $\frac{1}{2}$, $\frac{1}{4}$, $\frac{2}{3}$, $\frac{60}{100}$ etc) below.

Place Value Stacks

Base 10

Number of the Day

Regrouping

Number of ones

_____ ones

Number of tens

_____ tens + _____ ones

Number of hundreds

_____ hundreds + _____ tens + _____ ones

_____ hundreds + _____ ones

Number of thousands

_____ thousands + _____ ones

_____ thousands + _____ hundreds + _____ ones

_____ thousands + _____ hundreds + _____ tens + _____ ones

Add or Subtract

Add 8 =

Add 23 =

Add 564 =

Subtract 5 =

Subtract 42 =

Subtract 137 =

Spelling

Activity 6: Addition Strategies

Have a go at solving the problems using the strategies OR write the steps out with Mr Walter. If you 'get it', see if you can write the steps to each strategy by yourself (without Mr Walter's help). These numbers are different to the numbers on the videos.

<http://mrw1.weebly.com/>

Bridge to 10	$5 + 6$	Doubles	$4 + 9$
Compensation	$8 + 5$	Partitioning	$6 + 9$
Split	$36 + 14$	Jump	$47 + 23$
Compensation	$72 + 19$	Reconfiguring	$61 + 47$

Split	$370 + 274$
Jump	$462 + 183$
Compensation	$467 + 105$
Reconfiguring	$122 + 975$
Non-standard Partitioning	$569 + 499$

Fractions Think Board

In each section, show different ways to represent a fraction.

<p>Fraction Shape – Draw a shape and shade the fraction.</p>	<p>Number Line</p> 
<p>Fraction Amount – Draw a collection of objects and colour the fraction amount.</p>	<p>Fraction</p> <p>_____</p> <p>Write a Story</p>

Extension activities

Shade $\frac{1}{2}$ of each shape. Look at how many squares are shaded (numerator) and the total amount of squares (denominator) and write the equivalent fraction underneath.

1. _____

2. _____

3. _____

Shade $\frac{1}{3}$ of each shape. Look at how many squares are shaded (numerator) and the total amount of squares (denominator) and write the equivalent fraction underneath.

1. _____

2. _____

3. _____

Thursday

Activity 1: Reading

Online: PM Reader online: <https://app.pmecollection.com.au/login>;

OR

ReadTheory if you are reading at Independent level: <https://readtheory.org/auth/login>

Paper: Read a book aloud

Activity 2: Misery Guts - Reading

Read the next chapter yourself or follow the words as you listen to the audio book (check the link):

Chapter 2:

<https://ed.ted.com/on/zhwjIThL>

Activity 3: Misery Guts - Comprehension

Understanding Words

On Zoom, your teacher will help you describe, discuss and show you what these words refer to. On your own, research what these words mean (google images may help with some of these), then draw them. Make sure you understand what the word means in context (the way it is used in the story). Eg *flat* refers to a unit or apartment in the story.

textbook	Guinness Book of Records	feet
counter	smock	catalogue

Activity 4: Vocabulary

Word Cline

Complete the word cline below, starting with the word happy, and filling in the blanks, adding more complex and interesting words as you move up the cline.

Activity 5: Sentence Writing

Today you will write your sentences about your favourite dinner:

Example:

Simple	My favourite dinner is spaghetti.
<u>Compound</u>	My favourite dinner is spaghetti <u>because it's fun to eat.</u>
<i>Complex</i>	My favourite dinner is spaghetti, <i>which I top with various sauces,</i> <u>because it's fun to eat.</u>

Now it's your turn:

Simple
Compound
Complex

Extension: write a new clause for your complex sentence and rewrite your whole sentence below.

Activity 6: Grammar and Punctuation

Capital Letters

**Today's focus point: naming special events

EDIT Add the capital letters to this sentence. Don't forget to include a full stop –

the melbourne cup is one of australia's most popular social and racing events

Write your own sentence on the lines below –

Activity 7: Number of the Day

Complete the Number of the Day page (see separate sheet). Today's number (choose one):

Activity 8: Subtraction Strategies

Have a go at solving the problems using the strategies OR write the steps out with Mr Walter (go to the link below):

<http://mrw1.weebly.com/>

Back Through 10 14 - 7	Up Through 10 14 - 8
Fact Families 13 - 8	Think Addition 15 - 8
Think Addition (2 digit) 93 - 36	Jump (2 digit) 99 - 45
Compensation (2 digit) 96 - 52	Reconfiguring (2 digit) 67 - 28

Jump	367 - 173
Compensation	378 - 154
Reconfiguring	664 - 317
Non-standard Partitioning	359 - 172
Think Addition	216 - 134

Activity 9: Time

Online: StudyLadder – log in and complete the Time activity in the pod

Paper: Complete the following activity

Hour Hand

What hour is it?

- When the hour hand falls between two numbers, always go with the lower number. For example:

This area belongs to the **1**

This area belongs to the **8**

This area belongs to the **10**

Can you identify which hour these clocks are referring to?

Note** we are **ONLY** focusing on the hour

QUICK TIP!

Can't remember which hand shows the hours and which hand shows the minutes? Here's a little trick that may help:

Think of the word 'minute' being longer than the word 'hour'. So, if you ever forget which is which, just write out the words!

VS

- Your task is to identify the hour of the clocks below
- Be careful - the minute and hour hands will be the same colour
- Remember the Quick Tip: think of the word 'minute' being longer than the word 'hour'

Extension: Reproduce each clock face using your own adjustable clock from Week 1

Activity 10: Mindfulness

Affirmations

See separate colour sheet at the back of your pack and follow the instructions.

Friday

Activity 1: Reading

Online: PM Reader online: <https://app.pmecollection.com.au/login>;

OR

ReadTheory if you are reading at Independent level: <https://readtheory.org/auth/login>

Paper: Read a book aloud

Activity 2: Misery Guts - Reading

Read the next chapter yourself or follow the words as you listen to the audio book (check the link):

Chapter 2:

<https://ed.ted.com/on/zhwjIThL>

Activity 3: Misery Guts - Comprehension

Chapter 2

1. What two other tasks did Keith do to cheer up Mum and Dad?

2. What is 'distillation'?

3. Why do Mum and Dad have to keep their prices down and buy cheaper products?

Activity 4: Vocabulary

Word Work

Each Friday you will complete a Word Work sheet (see over the page). The target word is taken from our literature text this term, *Misery Guts*. You will need to:

- DRAW a picture which shows you understand what the word means
- WRITE a definition (meaning) in your own words, NOT copied from a dictionary. You can use a dictionary to help you understand the word but you need to explain what it means in your own words. Remember, a definition is not an example (don't say, "It's like when . . .")
- WRITE a sentence which shows you understand the word. Don't write "I don't know what *definition* means".
- WRITE other words built from the root word. A good way to start is to add 's', 'ed' or 'ing'. Say the new word in a sentence to check that it makes sense. Challenge – can you add prefixes to the root word?

Activity 5: Editing

Add the full stops and capital letters to the following passage. Read the passage aloud so you can hear where the full stops belong. When you have edited, read the passage again, pausing where you have added your full stops. Check your editing makes sense.

There are 5 full stops (add these first).

There are 5 capital letters.

keith looked up at Dad's face dad's mouth was droopier
than ever he looked up at Mum's face her forehead
looked like she'd put some tucks in it with the sewing
machine keith sighed

What other words can you make from the root word?

inflate

inflatable

Write a definition in your own words

Write a sentence

Draw a picture

Activity 6: Numbers in our World

Think about all the different ways you could show this number, then write, draw or explain them.

Example:

21 is

- odd
- 2 tens and 1 ones
- twenty one
- 3×7
- made up of factors being 1, 21, 3, 7
- a composite number
- two longs and a one
- 21 candles on a cake (draw)

Activity 7: Mass

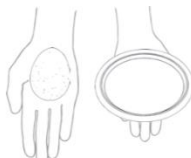

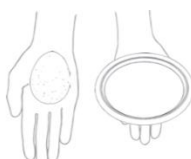

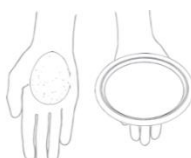

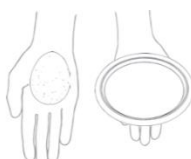

Online: StudyLadder – log in and complete the Angles activity in the pod
Information and example of hefting <https://www.youtube.com/watch?v=iTFfLeMdOpY>

Paper: Complete the following activity.

Hefting

Hefting means to estimate or test the weight of something by holding it or lifting it.

Find some items at home and hold them in your hands to compare their weight. In the table below write a comparison sentence and draw a picture to show the weight of each of the items in your hands. An example has been done for you...

First item	Second item	Comparative sentence	Drawing
Egg	plate	<i>The plate is heavier than the egg</i>	
			
			
			

Extension activity

Compare the fruit

						
blueberry 5g	strawberry 10g	apricot 30g	apple 80g	peach 100g	banana 150g	melon 2kg

1) Use the correct symbol (<, > or =) to compare these items:

2 strawberries and 1 banana		1 peach and 4 blueberries
5 blueberries and 3 apricots		2 apples and 1 banana
6 blueberries and 1 apricot		1 apple and 1 strawberry

Remember;

The greater than symbol is > So $9 > 7$ (9 is greater than 7)

The less than symbol is < So $3 < 6$ (3 is less than 6)

The equals symbol = is used to show that the values on either side of it are the same. Eg; $3+4 = 5+2$ (the 2 addition sums both equal 7)
