Task 8: Budget

A budget is a spending plan. How much should your client expect to pay in the construction of their tiny house? You will need to think about the cost of items and labour (workers, this includes you). Clients want good quality and a fair price. There are three options you can use to create your budget (**choose one**).

1. Use one of the budget sheets provided, fill in the item names and add the expenses. (You can make this up it might the cost of an electrician or supplies such as carpets)
2. Create a budget sheet using the blank sheet with made up totals
3. Create a budget sheet using the blank sheet and research the cost of items (online, magazines or asking an adult)
